🧱 Bubble Application Builder Program

Build Real Web Applications Visually with Bubble
Bubble is a powerful visual development platform that allows creators to design, build, and deploy interactive, data-driven web applications—**without traditional programming**. From MVPs to scalable internal tools, Bubble supports **frontend design, backend workflows, and database management**—all in one unified environment.
At **Certed Technologies**, our **Bubble Program** teaches you how to build professional-grade applications using logic-based workflows, responsive UI design, and dynamic data structures.

🌍 Why Learn Bubble?

Bubble empowers entrepreneurs, students, and teams to go from **idea to live application**—without relying on conventional coding. It offers a robust alternative to traditional software development, giving users full control over app logic, databases, and third-party integrations.
Bubble is now a **go-to platform** for launching SaaS tools, marketplaces, CRMs, and internal dashboards—used globally by startups and businesses.

👨‍🏫 Learn from Bubble-Certified Builders

This course is taught by experienced Bubble developers and digital product creators who have built **live, scalable apps** and consult for startups and clients globally. You'll gain hands-on experience building custom platforms from scratch.

🌐 Program Highlights

Feature	Details
Duration	2–3 Months / 100+ Hours
Delivery Mode	Hybrid (Online + Offline)
Platform Used	Bubble.io

Project Work	3+ Functional Apps + 1 Capstone Project
Certifications	Certificate from Certed Technologies + Platform Skills Badge
Career Support	Portfolio Review, Freelance Setup, Deployment Guidance

---

🔍 What You'll Learn

🔵 Module 1: Getting Started with Bubble

- Workspace Setup & Platform Walkthrough

- Pages, Elements, Visual Editor Tools

- Building Static and Dynamic Pages

🔵 Module 2: Databases & Workflows

- Creating & Linking Custom Data Types

- CRUD Operations (Forms, Lists, Filters)

- Workflow Automation & Backend Triggers

🔵 Module 3: UI & UX Best Practices

- Responsive Design Techniques

- Reusable Elements and Conditional Visibility

- Using Custom States for Better UX

🔵 Module 4: Third-Party Integration

- API Connector Overview

- Connecting to Airtable, Google Sheets, etc.

- Payment Gateway Integration (Stripe/PayPal)

📘 Module 5: Testing, SEO & App Launch

- Debugging & Version Control

- SEO Settings & Meta Tags

- Live Deployment & Domain Setup

📘 Module 6: Capstone – Build a Full-Scale App

- Custom MVP (SaaS / Dashboard / Marketplace)

- Functional UI + Data + Workflows

- Presentation, Feedback, and Publishing

🎯 Who Should Enroll?

This program is ideal for:

- Final year CS/IT/BCA/MCA students

- Startup founders & product thinkers

- Digital marketers or designers transitioning to builders

- Freelancers building apps for clients

💼 Career Outcomes

By completing this program, you'll be ready to take roles such as:

- Bubble App Developer

- Product Creator or MVP Builder

- Freelance Web Application Designer

- Visual Application Consultant

Popular Use Cases Include:
 Client CRMs | Learning Platforms | Event Portals | Booking Engines | Inventory Dashboards

---

💡 Tools & Platforms Covered

Bubble.io | API Connector | Stripe | Google Sheets | Figma (UI) | GitHub (Portfolio) | Airtable | Zapier

---

🛠️ Sample Project Ideas

- Project Management Tool

- Online Marketplace Platform

- School Admission Form & Tracker

- SaaS Billing Dashboard

- Employee Onboarding Portal

📜 Certification

Receive a **Certed Technologies Course Completion Certificate** along with a **Bubble Builder Badge**, recognized by employers, agencies, and product startups.

📢 Why Choose This Course?

✅ Hands-on Learning – Build Real Projects
✅ Ideal for Launching Your Own Product
✅ Live Workshops with App Builders
✅ Access to Templates, Design Systems & UI Kits
✅ Resume + GitHub + Client Proposal Support

📅 Upcoming Batch

Batch Start Date	Mode	Status
15 July 2025	Online	Open
22 July 2025	Offline	Few Seats Left
05 August 2025	Hybrid	Open

🏢 Custom Bubble Training for Institutions & Startups

This course can be customized for:

- Final-Year BCA/CS Project Bootcamps

- Incubators, Accelerators & E-Cells

- Internal Tool Development for Startups

- Product Design + Visual Logic Workshops

🔧 Custom Options Include:

- Focus on Marketplace / CRM / SaaS

- API-Heavy Workflows & Automation

- Bubble + Airtable or Notion-Based Apps

- White-Labeled Enterprise Tools for Teams

❓ Frequently Asked Questions (FAQs)

1. **Do I need any coding experience?**
   No. The entire platform uses a visual interface. All logic is configured visually.

2. **Is Bubble suitable for live/real apps?**
   Yes! Many production-level SaaS apps are built and scaled using Bubble.

3. **Can I use this for my final-year college project?**
   Absolutely. It's ideal for showcasing a fully functional prototype.

4. **Is freelancing possible after this course?**
   Yes. We help you build a portfolio and offer tips to acquire freelance work.

5. **Can Bubble be used for internal tools?**
   Yes. HR systems, inventory trackers, CRM dashboards, and more can be built.

6. **Does the course include publishing guidance?**
   Yes. You'll learn how to take your Bubble app live under your domain.
